

SWORD V2 Specifications

SWORD 2.0 Profile

This page provides links to resources for the SWORD 2.0 Profile and supporting specification documents.

[SWORD 2.0 Profile](#) (This is the main thing you need to read)

Supporting specifications, used by the SWORD 2.0 Profile:

- [SWORD 001: HTTP header fields for packaged content delivery](#)
- [SWORD 002: AtomPub Extensions for Packaged Content](#)
- [SWORD 003: AtomPub Extensions for Scholarly Systems](#)
- [SWORD 004: Atom Multipart Extensions for Packaged Content](#)

NOTE: these have not been submitted to any standards track, but they may be at some point in the future.
